### Competencies

<i>Creates personal images</i>	40%
<i>Creates visual messages</i>	30%
<i>Appreciates works of art</i>	30%

### Course Description

Through this course the students will be able to investigate and explore artistic techniques within socio-cultural and historical contexts. The student will have the opportunity to create personal and media images which incorporates experimentation with various techniques, materials, and ideas. Students will be encouraged to reflect on and share their experiences and appreciation of the creative process. This process will enhance the student's ability to transfer creativity and strategic knowledge to other learning experiences. Students will learn to embrace their creative potential in a supportive and inspiring learning environment.

### Principle Themes
